

SENIOR

TIFFANY BROOKS
PHOTOGRAPHY

Congrats grad!

Your high school graduation is a momentous event and you will want to record all the memories associated with it. One of the most important memories is your senior portrait session. These special images will be recorded in albums and prints, in your high school yearbook, and distributed to family and friends as a memento of this significant life event. It's important to carefully plan for your photography session. By following the steps outlined in this helpful guide, you can have fun and memorable senior portraits that truly depict you and your personality.

what to expect

- 1- After selecting a session date I will email you a pre-session questionnaire to help me get to know you!
- 2- The consultation! Once I receive your questionnaire, we will meet at my studio, grab some coffee, or on the phone to chat about your vision for your session, which package best fits your needs, brainstorm locations and get creative about how to make this experience unique to YOU!
- 3- Time to shoot! If you have chosen to include hair and makeup, we will meet the makeup artist at my studio 2 hours before your session. Otherwise, we will meet at the location you have chosen.
- 4- 3-5 days later I will send a little sneak peek via text and/or post to social media.
- 5- The reveal! About 2 weeks after your shoot, I will invite you to my studio for the big reveal of your beautiful images. I will help you narrow down your selections and choose which products you'd like to purchase.

Day of the session

We will meet the pre-determined time/location. You should arrive ready in your first outfit. If the attire wrinkles easily, you may want to come a little earlier so you can change into your outfit before we start shooting. You will want to bring water, snacks, makeup/hairspray for touch ups, lip balm, extra accessories/shoes, and possibly a towel.

Locations

There are so many gorgeous outdoor locations in Whatcom county that we can use for your session. Or you can choose to shoot in my studio for more contemporary, magazine style portraits. If you have a certain spot in mind or would like to use one that was seen in my portfolio, just let me know!

Making a payment

\$200 of your total investment will be required to book, and will apply towards your balance due.

Payment for packages, prints and products is due on reveal day. No order will be paced without full payment.

Delivery of photos

If you have product to pick up (USB, album) I will be in touch as soon as it is ready and schedule a time/place for a quick exchange.

Changes to your session

Because I book sessions months in advance, all session deposits are non-refundable. If you need to reschedule for any personal reasons, you may do so once. Any continued requests to reschedule may result in loss of your session and deposit. As for weather, we will keep an eye on the forecast leading up to your session time. If inclement weather forces us to reschedule, we will do so as soon as possible with no additional charge or consequence.

WHAT TO WEAR

tips how to prepare

One of the most common questions I get asked during the planning stages with my clients is "What should we wear?" Advice on what to wear on your photo shoot has changed over the years. No longer are white shirts and jeans on everyone the trend. I am more than happy to discuss your clothing choices, help you narrow down your decision or give you a direction to focus on as well as make sure that your clothing coordinates well with the locations chosen for your photo shoot!

1. Choose your style and Palette

Choose 2-3 outfits that reflect your personality, including casual and dressy. Pick a palette of 3-4 colors. Let this be your starting place. Think in terms of tones: blue tones, earth tones, neutrals, pastels, etc.

2. Use Muted Colors.

Muted tones look beautiful in a senior picture. When picking patterns, choose smaller ones that won't pull attention away from the main subjects. When thinking about texture, choose different ones that will give your photos some interest such as lace, corduroy, denim, and knits.

3. Layering

In the Summer months, this may be more difficult to pull off but during all of the other seasons, definitely layer your outfits. Not only will it provide more visual interest in each photo but it will also allow a lot more variety in your shots and poses. Have a ton of images of yourself in just your dress or cute top and jeans? Throw on a little sweater or jacket and a hat and you have entirely different look.

4. Fit Your Style To Your Location.

Always keep your session location in mind when choosing your outfit. If your session is happening in a city setting, dress up a bit with a pair of cute heels and a fancier dress than you'd normally wear to match the vibe of the city. If you've selected a more natural environment, choose something a bit more casual such as a maxi dress and opt for casual footwear like flat sandals or boots

5. Keep Make Up Natural.

You will want to avoid using very heavy makeup, but a bit of color on your lips, eyes, and cheeks will help bring you to life in photos. Be sure to bring some lip gloss with you as well for touch ups.

6. Consider Posing.

I will guide you through posing every step of the way during your shoot. When choosing your outfits, be sure to bring at least one that you will be comfortable sitting in. I also often will pose with hands up near your face, so don't forget about those nails!

7. Plan Ahead.

Make sure you have given yourself enough time to think about all of the details of your session. Plan ahead so that you can truly think about your photos and everything you want out of the session. You definitely don't want to be rushing and stressing out right before your session. If you're planning on getting a hair cut or color, it's best to schedule it a couple of weeks before your session.

8. Outfit Changes.

If time allows it, bring another set of outfits. Again, you will get a lot more variety in your shots so why not capitalize on the opportunity and get the most bang for your buck!

9. Accessorize!

Accessories give your photographs that needed punch! They lend pops of color, personality, and interest.

10. Just be you

Your senior portraits should reflect your style and personality. Consider including what you love - your art, athletic equipment, musical instruments, etc.

Your future memories are the most important thing to me, and I want your session to be a time for you to just be yourselves and enjoy it. Have fun.

Laugh a lot. And I'll take care of the rest!
